ANNUAL REPORT

2024

Dear friends,

For over 37 years, HDC's mission has been to build, sustain, and inspire a diverse network of organizations committed to producing, preserving, and increasing equitable access to affordable homes throughout King County. Since 1988, we've believed that housing is the foundation for healthy, successful, and equitable communities. And the need for this work has never been greater.

As a collective, we made key strides towards increasing housing affordability and stability in 2024. We secured millions in new funds for the State Housing Trust Fund and for the stabilization of affordable housing providers. Through the Complete Communities Coalition, we successfully advocated for key improvements to Seattle's proposed zoning changes, significantly increasing the city's zoned housing capacity. We also organized the Eastside Affordable Housing Coalition, strengthening partnerships with the Eastside Housing Roundtable and expanding our advocacy efforts in East King County. This work has helped create a clear path for progress, including an affordable housing requirement in Bellevue's Wilburton Subarea.

Over the past year, we have also deepened our commitment to addressing inequities in both housing and our sector. We expanded the Black Home Initiative (BHI) Network Policy Group and secured critical funding to build upon the Covenant Homeownership Act—a program launched in 2024 that has already made homeownership possible for 261 households through down payment assistance. Additionally, we continued to prioritize leadership development, with our Leadership Development Survey Course now serving cohorts that are over 50% BIPOC participants. Lastly, we continued our climate defense work—with our Exemplary Buildings and Decarbonize Affordable Housing Now programs providing an efficiency roadmap that has already served to affect code upgrades throughout the state.

Yet, as we celebrate those accomplishments, we must also prepare to boldly tackle the challenges that face our sector now and in the near future. As city and state budgets grapple with funding gaps and federal funding runs dry, it is essential that we collectively push for the creation of progressive revenue sources that can meaningfully address the housing needs of our entire community and stabilize the sector.

HDC is a movement. The future we aim to build, one wherein all people can live with dignity in safe, healthy, and affordable homes across King County, is only possible through our collective effort and unbreakable resolve.

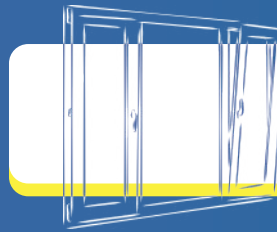

Thank you for your steadfast dedication.

Our Collective Impact

2024 was a year of **far-reaching impacts and accomplishments**. Working together, the HDC movement made powerful change—aiming towards a future where all our neighbors have access to safe, healthy, and affordable housing. Without you, none of this would've been possible. **We're in this together.**

We recharged and re-energized affordable housing advocacy in East King County!

We reorganized the **Eastside Affordable Housing Coalition**—a group of community advocates, non-profits, businesses, and communities of faith—strengthening partnerships with the **Eastside Housing Roundtable** and **better advocating for courageous solutions to the Eastside's housing shortage**.

This improved advocacy supported **bold comprehensive plans that have been enacted throughout the Eastside**, helping create sustainable, transit-oriented, communities that prioritize affordable housing and mitigate displacement of our neighbors.

We secured extensive funding for affordable housing throughout King County and Washington State!

We helped secure **\$127 million** in new funds for the State Housing Trust Fund, **\$14 million** in flexible funding from the City of Seattle, and **\$2 million** to build on the Covenant Homeownership Act.

These resources **directly support** the funding of affordable housing projects, operational stabilization of the affordable housing providers, and first-time homeownership for communities impacted by historical discrimination.

We advocated for key legislation!

We supported policies that included **reforming state building codes**, creating studies aimed at **addressing skyrocketing insurance costs** for affordable housing development, creating **tax exemptions for public lands** used for affordable housing, and expanding the Sales & Use Tax to **fund certain homeownership projects**.

We won improvements to future Seattle development!

We continued our leadership in the **Complete Communities Coalition**—an alliance of community groups aiming to improve the 2024 Seattle Comprehensive Plan—and won changes to Seattle zoning proposals that will **significantly increase the city's zoned housing capacity** and **improve housing affordability**.

We also organized to support a three-year Design Review Holiday in downtown Seattle—**reducing costs and expediting housing development** in and around the core of the city.

We continued to build the future of the sector!

We continued our work to diversify the affordable housing sector—expanding the number of **BIPOC participants** in our **Leadership Development Survey Course** to **over 50%** of recent cohort members.

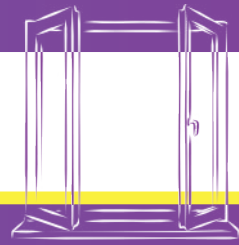

We also continued to administer the **Housing Development Internship Program**—which aims to provide a launch pad for college and graduate students from communities of color seeking a career in affordable housing development. In 2024, **90% of graduates** from this program were hired as full-time employees by their host agencies.

We worked to address historic inequities!

We expanded the **Black Home Initiative (BHI) Network Policy Group**—a group of **125+ stakeholders** who work together to produce a framework aimed at addressing **persistent historic inequities and discrimination** in Washington State homeownership—and secured critical funding to build upon the **Covenant Homeownership Act**—a program launched in 2024 that has already made homeownership possible for **261 households** through down payment assistance.

2024 Members

HDC is its members, and at more than 215 strong, our network continues to expand its reach, engagement, and capacity to create meaningful change.
